DETAILED ACTION

1. Receipt is acknowledged of the amendment filed December 27, 2001. Claims 14-16 have been amended. Claims 14-17 are pending.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 14-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claim 14 contains the trademark/trade names Polymer 1163 and Polymer 1189. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe polymers comprising vinyl or acrylic monomers and, accordingly, the identification/description is indefinite.

5. Claim 17 is indefinite because it depends from a canceled claim. This rejection is maintained for reasons of record in paper no. 5. It is noted that Applicant asserts in the

Art Unit: 1617

amendment filed December 27, 2001 that claim 17 has been amended to overcome this rejection. However, no such amendment has been found.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 14-17 are rejected under 35 U.S.C. 102(b) as being anticipated by 4,151,269 (269).

This rejection is maintained for reasons of record in paper no. 5.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 14-17 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-11 of copending Application No. 09/275,149. Although the conflicting claims are not identical,

Art Unit: 1617

they are not patentably distinct from each other because of the reasons of record in paper no. 5.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented. It is noted that Applicant has reserved the right to file a Terminal Disclaimer when allowable subject matter is indicated.

Response to Arguments

8. Applicant's arguments filed December 27, 2001 have been fully considered but they are not persuasive.

9. Applicant argues that US '269 does not disclose Polymer 1163 or Polymer 1189 as instantly claimed. Because it is unclear what exactly encompassed by these tradenames, they are considered to encompass the polymers as originally claimed, i.e. vinyl-based and acrylic-based polymers. US '269 discloses polymers containing vinyl and acrylic monomers at column 4, lines 24-27. Therefore, absent evidence to the contrary, the film-forming polymers of US '269 encompass the instantly claimed polymers.

10. Applicant argues that US '269 does not disclose the particular weight ratios of components (a) to (b) instantly claimed. US '269 discloses about 0.1-2 wt.% of a thickener such as hydroxyethyl cellulose (b) and 0.1-2 wt.% of a film-forming agent such as vinyl and acrylic polymers (a). This provides a weight ratio of 1.0:0.05 to 1.0:20, which encompasses the instantly claimed ratio.

Conclusion

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
